GreekHackers

It was a great opportunity to work with these innovative individuals who are passionate about technology and business innovation. We were working on a Document Management System and Information Portal project that can help small township businesses to understand their business information and data challenges in order to improve their business efficiencies, and Decision

making . Thanks to the Empire Partner Foundation and Microsoft for giving us an opportunity to present our solution, and we #WON the hackathon, we have learned a few corporate-level skills like project management, assigning team roles, the implementation of an efficient information sharing cycle within a team, product pricing, personnel management, business development, and marketing

- 1.Ketro Sithole front-end Developer, Data Analyst, and Team Leader of the project.
- 2.Kudakwashe Christine Chivunga Frond end Developer and Deputy Project Leader
- 3.Choma Isaac Back End Developer.
- 4.Paballo Mathipa Business Analyst
- 5.Lettie Molapisi Business Analyst
- 6.Precious nhlapho front End Developer
- 7.Abdud-Dayyaan Sedick Business Analyst.
